

Product Specification Sheet

Pacific 5.5°-13° Very Narrow Zoomspot

A base down axial profile delivering a “cool” beam of light.

The beam is a crisp “white” light with little or no distortion, ideal for pattern projection and precise beam shaping.

An energy efficient luminaire with active heat management system delivers longer life for filters, shutters etc and lower energy consumption.

Features

Compact 5.5°-13° luminaire less than 1 metre long.

Cool light ‘white’ light. Over 80% of the heat is removed from the light beam by cold mirror and dissipated through the heatsink.

Base down lamp mounted axially in the reflector to maximise light collection.

Choice of 600W, 800W, 1000W or 150W MH or MSR 575W lamp modules (each supplied with 1m mains cable).

Accurate, simple & cool to use, lamp peak / flat adjustment.

Two pattern / iris mounting positions.

Independent rotating gate assembly.

Constructed from aluminium pressure die-castings and injection moulded Fortron plastic components.

Automatic disconnection of power on removal of lamp module.

Lamps: 240V

GKV600W 15,000 lumens	300 hours average life
GLB600W 13,000 lumens	1500 hours average life
800W 22,000 lumens	400 hours average life
GAD1000WBP 25,000 lumens	250 hours average life
GAB1000W BP 230V 25,000 lumens	250 hours average life
